

## **Prac 6 Reflection**

**What have you changed about your process in this subject based on your personal reflection?**

Devoting more time to this subject.

**What do you still need to change in terms of your approach, application, time on task, attitude, etc.?**

Finishing work on time and attending classes.

**What are you doing well in the subject so far that you will keep doing?**

Finishing work even though its late.

**What do you need to stop or change in your work for this subject overall so far?**

Not attending classes and leaving work to the last minute.

**What is one request you have or change you suggest for this subject and/or your IT degree overall?**

Can't really think of any, most of the issues I have are self inflicted.
